

Release Notes for INSPECTIS© OAI, V7.2.6 through V7.2.8

New:

1. 1600x1200 format is added to "Device Resolution" of the USB cameras.
2. Device drivers for USB Camera, Communication cable and PCIe capture card can be installed automatically during the installation wizard.
3. Communication cable device driver is updated for better compatibility with Win11.
4. A CSV file "Inspectis Measurements" containing measurement results is automatically saved under Inspectis program folder on the host computer in real time. Can be accessed from other Apps.

Improvements:

5. Destination of the Log file is changed to AppData\Roaming.
6. "Measure an Angle by 3 Points" procedure is adjusted. The second point defines the vertex of the angle.
7. Mouse click on Zoom Editor, highlights the current numbers for easier editing.
8. Barcode reader engine is improved.

Bugfixes:

9. Software crashed if camera control was not established in Win11.
10. Measurement icons were blocked upon calibrating external uncalibrated images.
11. "Annotation with Line" Icon did not stay on top of the icon group when selected.
12. Sporadic software crashes due to double click on image thumbnail resolved.
13. Measurement icons were blocked when calibrating an external uncalibrated image.
